The screenshot shows the STN/EXPLORE interface. At the top, there are five buttons: "Query", "Or", "Combine", "Save", and "Quit". Below these is a text input field containing the search query: "USPAT;US-PCPUB;EPO;JPO;DERWENT;IC". To the right of the input field is a button labeled "Phrases". Below the input field, it says "Default operator: OR". To the right of this is a checkbox labeled "P: Highlight all hit terms initially". The main area of the screen is a large, empty rectangular box with a dotted pattern, representing the search results. At the bottom of the screen, there is a status bar with the text "STN/EXPLORE" and "Version 1.0".
